Approval form: check a tool and decide

One page per tool. Checked at the provider's page or contract; the concluded contract prevails. A blank field is a finding; a filled field without source and date is not. The form sets no benchmark for approval; the management decides.

Tool (name in the business)	Text assistant (chat)
Provider, product, tariff	
Tool kind	Text assistant (chat)
Purpose in the business	drafts of quotes and offers, summaries of documents, translations and wording help in customer correspondence
Users	
Account kind	Business account
Data kinds	
Checking person	Office management

Question	Answer	Source at the provider, date	Wording / remark
1 Training with business data: are inputs used to train the models? Can this be excluded or opted out?			
2 Data processing agreement: is one offered, and for which services?			
3 Place of processing: is there a reliable commitment to processing in the EU, with which exceptions?			
4 Third-party rights: does the provider indemnify against third-party claims, and what is excluded (own inputs)?			
5 Deletion and input history: can it be set that no input history is kept beyond the session and inputs are not used for training?			
6 Access and account kind: is there a business account without personal names, with a functional address? Who manages it?			
7 Lawfulness of model development: is there an official or court finding about the provider? Usually "not surveyed" for a business without a legal department.			

Decision

- ☐ approved without restriction
- ☐ approved with restriction (which)
- ☐ not approved

Reason	
Standard of the business	Without a data processing agreement, no approval for personal data
Review due	

Date, signature of the checking person

Date, signature of the management

After the decision: update the row in the tool register (approval, review date, review due) and file this form with it.
