Labelling checklist · Article 50 AI Act

Legal basis: Article 50 of Regulation (EU) 2024/1689 (AI Act), applicable since 2 August 2026 (Art. 113). This sheet classifies; it does not determine whether a rule applies, and names no authority and no penalty. Points 1 to 3 apply once per business with a review date; points 4 to 9 per system or per publication. The wording of Article 50 is to be checked against the Official Journal before any use beyond this checklist (handbook, open points).

Business	Example Electrical Ltd
Responsible for labelling (§ 7 of the policy)	Owner or managing director
Date	23 October 2026

1 · Role clarification (standing)

Art. 3 (3) provider, Art. 3 (4) deployer

- ☐ Recorded for each tool in the register: provider (name, product). The business is the deployer because it uses the system under its own responsibility; employees acting on instruction are not deployers themselves. Tools in the register: Text assistant (chat), Translation service, Assistant inside office software.
- ☐ Decides on use in the business: Owner or managing director.
- ☐ No tool was put into service under the business's own name or substantially modified. If it was: the business may be a provider; further duties apply outside this sheet; ask a specialist.

2 · Inventory of uses (standing)

Art. 50 (1), (3), (4)

An AI system talks directly to customers or other people (chat, voice, avatar): Art. 50 (1)	no
The business creates or alters images, audio or video with AI that get published: Art. 50 (4) first subparagraph	yes
The business publishes AI-generated or AI-altered text: Art. 50 (4) second subparagraph	yes
The business uses emotion recognition or biometric categorisation: Art. 50 (3)	no

3 · Provider evidence (standing, per tool)

Art. 50 (1) and (2); Art. 111 (4) as amended (to be checked)

Tool	Notice of interaction with AI (para. 1): source, date	Machine-readable marking of outputs (para. 2): source, date	Checked on
Text assistant (chat)			
Translation service			
Assistant inside office software			

Paragraphs 1 and 2 address the provider; the business records what the provider says and claims nothing itself. For systems placed on the market before 2 August 2026 the provider may have time for paragraph 2 until 2 December 2026 (Art. 111 (4) as amended, to be checked): enter "no statement" and set a review date.

5 · Deepfake check (per image, audio or video)

Art. 3 (60); Art. 50 (4) first subparagraph and (5)

- ☐ Content: [name, place of publication]
- ☐ Does the content show real persons, objects, places, entities or events, and would it falsely appear authentic to a person? Deepfake: yes / no, one sentence of reasoning: [sentence]
- ☐ If yes: disclosure that the content was artificially generated or manipulated, visible or audible, placement, date: [how, where, when]
- ☐ Reliance on the exception for evidently artistic, creative, satirical or fictional work, reasoning (for advertising it usually does not apply): [reasoning or "not claimed"]

6 · Text check (per publication)

Art. 50 (4) second subparagraph

- ☐ Text: [title, place of publication, generated on, published on]
- ☐ Publicly accessible (website, blog, social media, open mailing list)? yes / no
- ☐ Does the text inform the public on matters of public interest (indications: law, health, safety, environment, subsidies; not pure offer and product texts; mixed texts in doubt as covered)? yes / no
- ☐ Both yes: either disclosure (wording, place): [how, where]
- ☐ or exception: human review or editorial control by [name, kind of review, date]; no change by AI after the review; editorial responsibility held by [person or business, where publicly named, e.g. legal notice]

7 · Timing and form (per case)

Art. 50 (5)

- ☐ The information is provided at the latest at the time of the first interaction or exposure, in a clear and distinguishable manner.

- [ ] It meets the applicable accessibility requirements: [how checked, to be verified]

8 · Key dates (per content)

Art. 113; Art. 111 (4)

- [ ] Article 50 applies since 2 August 2026. There is no transition period for the business as deployer.
- [ ] Content generated on [date], published on [date]. According to the guidelines, content generated before 2 August 2026 need not be labelled retroactively; text generated before but published after that date must be: check against the original.

9 · Delimitation

Art. 50 (6)

- [ ] Labelling does not make the use lawful; data protection, competition law, personality rights and copyright remain unaffected.
- [ ] Authority and sanctions in the own member state: to be checked. This checklist names none. Checked on: [date]

Review: on every new publication and once a year, and when a tool is added or a provider changes its terms.
